

LEADING BUSINESS MAN IS CALLED

R. C. H. Covington, Sr., Peacefully Sinks To Final Sleep Late Thursday Evening

Robert Christopher Harris Covington, prominent business man and respected citizen, died at his home on West Main street at 11:30 o'clock Thursday night. Death came peacefully as if he was sinking into a quiet sleep. Around his bedside were his family and loved ones, for it had been realized for days that tired nature would no longer respond to the game fight that he was making.

Mr. Covington was a native of Madison county and had lived here all his life. He was born at Elliston December 31, 1862. When a young man he moved in to Richmond and became associated in business with E. E. Mitchell. Afterwards he formed a partnership with the late Ben Banks, and upon his death took over the large gent's clothing and furnishings business himself, making a signal success.

Twenty-six years ago the deceased was married to Miss Mary Morrow, of Owen county, and she with two sons, R. C. H. Covington, Jr., and Coleman Covington, and two daughters, Misses Mary Louise and Nancy Covington survive. One brother, T. T. Covington, also survives. Their family is one of the oldest and most prominent in this section of Kentucky.

Mr. Covington joined the Baptist church early in life and ever lived close to his Lord. He took a deep interest in the work of his church and had served as deacon for a number of years. He was a member of the Masonic order, and was a Knight Templar and Shriner.

Public affairs always held his interest and he was often found in the forefront of movements for the betterment of his town and community. A man of strictest integrity he was uncompromising in his convictions. He was respected and esteemed by a wide circle of friends and associates, and his passing away just in the prime of life leaves a gap in the life of the community that will be hard to fill.

Funeral services will be conducted at the home Saturday afternoon at 2 o'clock, conducted by Dr. O. Olin Green, its pastor. Interment will follow in the Richmond cemetery. Pallbearers will be: R. E. Turkey, M. C. Covington, S. H. Thorpe, J. H. Leeds, T. B. Collins and J. S. Crutcher.

ARCH KAVANAUGH, NOT JOHN FRANCIS, KILLED

It was Arch Kavanagh, and not John Francis, who was killed by a fall from his barn loft in Garrard county early in the week. The Daily Register regrets that it chronicled the death of Mr. Francis, but like Mark Twain, he can say that the report of his death was "slightly exaggerated." The Lancaster Record had this about the death of Mr. Kavanagh who was one of the most prominent farmers of Garrard county and was known to many here in Madison:

Mr. Kavanagh had been to his farm on the Buckeye pike Tuesday afternoon and returned about dark, when together with his son, Benjamin, had gone to the barn at the rear of his residence and was up in the loft getting feed for his riding horse. It had become dark at this time and while preparing the feed for the horse the accident happened. He had two pieces of baled hay in his hands and while walking on the floor of the loft he fell through the opening about twelve feet below, falling on his shoulder. His body was badly bruised and his left shoulder badly crushed besides internal injuries. The accident happened about six o'clock in the evening. Dr. Virgil Kinard was summoned and dressed the injury and at the time did not think it was serious. Mr. Kavanagh, however, did not fully regain consciousness, and passed away Thursday morning.

He was born in Garrard county 68 years ago. For 35 years he was an active leader in the Presbyterian Church, being a deacon most of this time. Thirty-three years ago Mr. Kavanagh married Miss Edith Francis. She together with their five children survive. The children are Mrs. Hubert Ellis, of Wilson, N. C.; Mrs. John Scott, of Lancaster, and three sons, Joe, William and Benjamin Kavanagh.

Thanksgiving Pardon For Father Of Ten

Frankfort, Nov. 25.—Thanksgiving pardon was given to Josh Dotson, Whitley county, convicted of manslaughter and sentenced to the penitentiary for two years. Dotson, 46, a coal miner, killed Richard Hodge, whom the governor says "is represented as a man of desperate character." A day or two before the killing took place Hodge met the 12-year-old boy of Dotson and beat him. On the next day he raised a difficulty with Dotson, telling him that he had "beat hell out of his boy." The day following, when the two men met, the killing occurred after Hodge had attempted to rock Dotson. It is said Dotson has a wife and ten children and an aged mother, who are dependent upon him for support.

ANOTHER CHANCE FOR GROWERS TO SIGN UP

Association's Books To Open For 15 Days To Permit All Who Desire To Come In Pool

Lexington, Ky., Nov. 25.—Every tobacco grower in the burley district is to be given opportunity, before the definite and final closing of the books of the Burley Tobacco Growers' Co-operative Association, to sign the co-operative marketing contract under which the association will handle the crops of the growers for the years 1921 to 1926, inclusive.

The committee on redistricting and elections has directed that those growers who for any reason have not yet signed or had the opportunity to sign be given that opportunity during the fifteen days between Saturday, November 26 and Saturday, December 10.

Organization Manager Joseph Passonneau, following the action of the committee, sent the following instructions to each of the county chairmen in the burley district:

"As you know, there are a large number of burley tobacco growers that, for some reason or other, failed to sign the marketing contract prior to November 15. Regardless of what that reason was, it seems to me to be the belief that these men should be given the opportunity to sign the contract before the primaries for the election of delegates are held.

"The committee on elections has voted that fifteen days should be given for the signing up of these outside men. The time chosen has been from Saturday morning, November 20, until 12 o'clock Saturday night, December 10th.

I believe that everyone who has not signed the contract should be offered the opportunity to do so. With a little additional effort on the part of the workers it should be possible to make the association 95 per cent strong during these fifteen days.

Appraisal companies were invited today by the warehouse committee to send representatives to a meeting of the warehouse committee to be held in Lexington Wednesday morning to discuss with the committee the basis of appraisal of the warehouse properties of the burley district, so that a valuation may be agreed upon for the purchase, lease or rental of the needed real estate to carry on the business of the association.

Committees were appointed to confer with representatives of those warehouses in the district which have not yet signed their intention in regard to closing their houses to the sale of burley tobacco while the organization of the association is being effected. I. W. Fitzgerald, of Mason county, will look after this work in northeastern Kentucky. Chairman Ralph M. Barker, in western Kentucky, and a committee composed of Chairman Barker, J. R. Jones, of Harrison county, and Charles M. Marshall, of Lexington, will endeavor to obtain the co-operation of the Kenton Loose Leaf Warehouse Company at Covington.

HIGH CLASS MEN TO PICK DIRECTOR

Eight Prominent Farmers Nominated in Voting Four Will Be Elected From Madison

An earnest effort of the splendid quality of men who are to compose the Burley Tobacco Growers' Association's directorate and manage its affairs is seen in the list of men nominated to elect a director for the 19th district, composed of Jessamine, Madison, Laurel, Rockcastle and Jackson counties.

As the only two counties formally organized are Madison and Jessamine, the men from these two counties will elect the director. Ballots to vote for the electors, however, will go to every contract signer in the other three counties. Madison is entitled to four votes in the election and Jessamine to three.

Eight names have been suggested for the nominating committee of four from Madison. Ballots will be mailed to each of the 847 contract signers in Madison county and they may vote for four of these eight or may write in the names of any other man or woman they might happen to prefer. Then when Madison has selected her four electors and Jessamine her three, these even will meet and elect the director who will represent the 19th district on the Association's board of Directors.

As before said, the eight men show to all the high character of men who are at the front of this great movement for the betterment of the tobacco growers' condition. The eight men nominated here are:

T. S. Burnam, L. N. Neale, E. C. Million, T. D. Chenault, Jr., William Arbuckle, T. S. Hagau, B. J. Broadbent and Waller Bennett.

The same system of balloting is being carried out in every county in the association district, and in this way the men who sign the contracts are the ones who select their representatives in the association's governing board. Names are suggested to him, as above outlined, but they are not for others if they desire and for whomsoever they choose.

ONE MORE DAY IN BIG BONUS PERIOD

Now Is The Time To Help Your Friends if You Want to See Them Win Real Prizes

There is one more day in the \$30 period, the biggest period of the Daily Register's big subscription campaign. Saturday, Nov. 26, closes this period.

More and more subscriptions are coming in to the Daily Register as this \$30 period draws to a close and the question for the workers to ask themselves is "how many extra votes have I secured?" and for others "how many extra votes have I given my friend who is trying hard to win one of the grand prizes?"

Most of the candidates have made big gains during this period and you can see from their standing that they are gradually going up the ladder, and it won't be long now before some one is going to drive away in a new automobile at the expense of the Daily Register.

Remember there are no losers in this campaign. If you work actively during this drive, you can't lose, as you will be given a liberal commission on what you turn in to this office.

Starting next week we have something else to offer you as the Daily Register expects to make this drive interesting to you from beginning to the end, which will be in December.

Twice each week now the standing of the candidates will be run and you can easily see how your friends are running. Workers who expect to win, don't slow up at this stage of the campaign, but work each day and allot yourself to so many subscriptions each day and don't take less than the amount you set out for—this is the only way to succeed.

You are now at the critical stage of this campaign. If you fall down now, it will be fatal to your chances to win a grand prize, as the more time you devote to subscriptions, now, the better chance you stand.

NORMAL HI WINS FROM LOCAL RIVAL

Two Touchdowns Represent Total of Victory Over Madison Hi Football Team

The Normal Hi gridiron warriors triumphed over their ancient enemies on the Normal gridiron Tuesday afternoon when they defeated the Madison Hi team by a score of 13 to 0, in one of the hardest fought games this season. Captain Bill Crutcher of Normal Hi led his huskies on the field at 2:50 and Captain Hacker, of Madison appeared on the field in a few minutes with his team. Both teams took several minutes for signal practice and then separated for some punting. The captains met in the center of the field at 3 o'clock and Captain Hacker won the toss. He chose to defend the west goal. With a great deal of pep both teams lined up for the big contest and started at 3:05 sharp. Ed Adams kicked off to Hurst of Madison on the 20 yard line who returned the ball 11 yards.

Here Madison looked as if they were going to make a touchdown in short order. They made two firstdowns in rapid succession, but in the middle of the field the Normal Hi line strengthened and forced the Purples to punt.

In the first half the two elevens played on a par with each other. Madison tried the forward pass and gained at it to some extent. Line backs were tried by both teams but neither seemed to gain steadily enough to permit scoring. Normal Hi had a fine chance to score in the first quarter but could not break through the Madison defense. In the latter part of the first quarter Powell, the big Normal Hi guard, broke through the Madison line and blocked a punt. He recovered and the ball was Normal's on the Madison 27 yard line. Madison held there and on gaining possession of the ball punted it out of dangerous territory.

Talton Stone was doing the most consistent gaining for Madison at this point of the game. With Anderson also bucking the line for good gains. For Normal Hi Bryan was carrying the ball for more gains than any other Maroon and White warrior. Meredith and Byrd were circling the ends for good gains while Normal Hi had the ball.

Both teams in the first half seemed to be waiting to let their opposition open tricks. Each seemed to be sizing the attack of the other and getting ready for the big offense they were expecting to open in the second half.

The third quarter opened with a bang. Madison kicked to Normal Hi. Byrd receiving and carrying the ball to the 40 yard line by some fine broken field running. After one playing Jimmy Carr, Carr, stiller end of Normal Hi, got away with a forward pass and ran within 15 yards of goal.

The key to success is work—There is no substitute for it!

In order to do your best work, you must be healthy. You must sleep soundly at night, your nerves must be strong, steady and under perfect control.

If you are accustomed to drinking tea or coffee with your meals or between meals, you may be loading yourself with a very great handicap. Your nervous system may be stimulated beyond what is natural for you.

For tea and coffee contain thein and caffeine. These are drugs, as any doctor can tell you. They are known to irritate the nervous system by their action and to cause restlessness and insomnia, which prevent the proper recuperation of the vital forces.

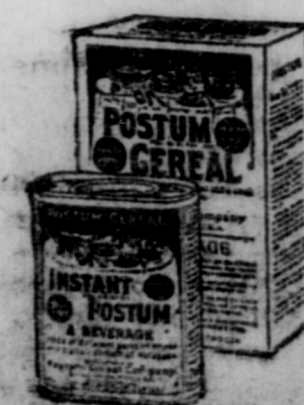

If you want to be at your best, capable of doing the very best work that lies in you, why not stop drinking tea and coffee? Drink Postum, the rich, satisfying beverage made from scientifically roasted cereals.

Postum contains absolutely no drugs of any kind, but in flavor tastes much like rich coffee. It helps nerve and brain structure by letting you get sound restful sleep.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Ask your grocer for Postum. Sold everywhere.

Rheumatism Can Be Cured!

But You Must Clear Your Blood of Waste Products.

Lack of exercise and improper diet causes waste products to accumulate in the blood. You will at once realize that unless the blood is pure, some part of the body will become diseased.

Rheumatism, with its pain and agony, is one of the most serious diseases caused by waste products in the blood. You know, of course, the blood is not confined alone to the arteries and veins. It passes out of these channels to all parts of the body. This is how sediments or waste products are deposited in the muscles and joints. Genuine relief can be had only by correcting the basic trouble—waste products.

Thousands and thousands of men and women during the past 50 years have cleared their blood of waste products with S. S. S. It is the ideal remedy for rheumatism, because it removes the poisonous waste matter which is causing the trouble. There are no bad after effects and the result is wonderful. Begin taking S. S. S. today and write for 56 page illustrated booklet, "Facts About the Blood"—free.

A Good Cough Medicine for Children

Mrs. J. W. Phillips, Redon, Ga., phoned to J. M. Floyd, the merchant there, for a bottle of Chamberlain's Cough Remedy and said she had bought a bottle of it at his store recently and that it was doing her children so much good that she wanted to keep up the treatment. You will find nothing better for coughs and colds in children or for yourself. It keeps the cough loose, expectoration easy and soon frees the system from the cold.

Stories of Great Scouts

By Elmo Scott Watson

FORSYTH'S SCOUTS, THE ORIGINAL "ROUGH RIDERS"

This is the story of 51 scouts, instead of just one, for together they won undying fame in one of the fiercest battles ever fought with the Indians on the frontier. They were Forsyth's Scouts, the "Rough Riders of 1898." Gen. George A. Forsyth was their leader—"Sandy" Forsyth, he had been called in Civil war days.

The scouts left Fort Wallace, Kan., in pursuit of a band of Dog Soldier Cheyennes who had been raiding in western Kansas. Early one September morning while they were camped on the Arkansas river in eastern Colorado the Indians appeared and tried to stampede their horses. As the scouts prepared to mount and give battle, Sharps' Coward, their guide, touched Forsyth on the arm. "Oh, heavens, general!" he cried, "look at the Indians!"

In the next instant the surrounding hills and valleys were alive with savages, who charged down upon the scouts, but were driven off by a few volleys. Surrounded and hopelessly outnumbered, there was but one thing for Forsyth to do. In the center of the stream was a little island on which grew a few small trees. "Make for the island, men!" shouted Forsyth. "It's our only chance."

They reached the island just in time. While Indian riflemen along the banks of the stream poured in a hot fire, a packed body of 500 warriors led by the Cheyenne chief, Roman Nose, charged down upon them, intending to ride over Forsyth's band in one red wave of destruction. The Indians were beaten back, they settled down to besiege the scouts.

Twenty-three of the 51 scouts had been killed or wounded when evening came. Forsyth was suffering from three wounds and Lieut. Fred Beecher, the second in command, had been killed, as had the only surgeon in the command.

For nine days, in spite of hunger and wounds, the little band of scouts beat off the Cheyennes, until life of the scouts changed to slip through the Indian lines at night and guide a force of cavalry to their rescue. Once Forsyth gave the unwounded scouts a chance to try to escape, leaving him and the other wounded to their fate, but they refused. "We've fought together, and we'll die together, if we must," was their heroic answer.

The island was named Beecher's Island, in honor of their lieutenant, and today a monument stands on it to mark forever the place where Forsyth's Scouts fought so bravely.

Dr. O. Olin Green and Mrs. Green and Mrs. Margaret Green were dinner guests of Mrs. Richard Gellen in Lexington Thursday.

Mrs. E. H. Pommeroy and little daughter, Margaret Hale, of Danville, are the guests of the former's parents, Rev. W. S. Taylor and Mrs. Taylor, on East Main street.

Mr. and Mrs. Pat Sutton and Mrs. Bryan Wilnot, of Lancaster, were visitors in Richmond Monday.

SO WEAK SO NERVOUS

How Miserable This Woman Was Until She Took Lydia E. Pinkham's Vegetable Compound

Toomsboro, Ga.—"I suffered terribly with backache and headache all the time, was so weak and nervous I didn't know what to do, and could not do my work. My trouble was deficient and irregular periods. I read in the papers what Lydia E. Pinkham's Vegetable Compound had done for others and decided to give it a trial. I got good results from its use so that I am now able to do my work. I recommend your Vegetable Compound to my friends who have troubles similar to mine and you may use these facts as a testimonial."—Mrs. C. F. PHILLIPS, Toomsboro, Ga.

Weak, nervous women make unhappy homes, their condition irritates both husband and children. It has been said that nine-tenths of the nervous prostration, nervous depression, "the blues," irritability and backache arise from some displacement or derangement of a woman's system. Mrs. Phillips' letter clearly shows that no other remedy is so successful in overcoming this condition as Lydia E. Pinkham's Vegetable Compound.

"MY LITTLE GIRL HAS GAINED 15 POUNDS," SAYS HAPPY MOTHER

Little Rhode Island Girls Is As
Bright and Cheery and Her
Cheeks Are As Rosy As Ever.

SHE CAN NOW KEEP
UP IN HER CLASSES

"Only a Mother Can Understand
What I Suffered When I Saw
My Daughter Slowly Wasting
Away," Says Mrs. Mary Smith.

"Every time I look at my little
girl's rosy cheeks my heart goes
out in praise and gratitude to
Tanlac," said Mrs. Mary Smith,
of Peacedale, R. I., a suburb of
Providence, recently.

"Until Mary was eleven years
of age she always enjoyed good
health and had a very happy, fun-
loving disposition. However,
during the last three years she
became very thin and frail. She
took on a very sallow color, her
tongue coated over, she com-
plained of a bad taste in her
mouth, dull headaches, and of
feeling languid and tired all the
time. She lost her sunny dispo-
sition and became nervous, irri-
table and moody. Her appetite
got so poor that I had to coax
her to eat. Her sleep was fitful,
her eyes dull, and her steps so
heavy that it seemed she hadn't
strength to lift her feet from the
floor.

"She had always stood high in
her studies, but now her reports
were so bad that her teacher called
on me to find out why she had
gone back in her lessons so.
When I asked her why she failed
so in her school work she cried
and said she studied as hard as

ever but couldn't seem to re-
member. Only another can un-
derstand what I suffered when I
saw my daughter slowly, but
surely, fading away each day. I
could hardly keep back the tears
when I looked at her.

"Six months ago we took her
out of school, thinking this might
help her, but she continued to
grow worse. We were told she
would get better when she grew
older, but I was afraid she
couldn't live and have shed many
a tear over her condition. In
fact, my husband and myself both
were down right sick from worry
over her, and yet, nothing did her
any good.

"One day my husband said,
'why not have Mary try Tanlac?'
Each morning I have read in the
papers of someone being helped
by it and it may be what she
needs."

"Well, I tried everything else,
so as a last resort I had Mary
try Tanlac and I have felt thank-
ful a thousand times that I did.
Before she finished the first bot-
tle she was eating like I have
have been wanting to see her eat
for three years. Now she is the
first to the table and the last to
leave. She has gained fifteen
pounds and is still gaining, and
her face is as round and rosy as
it ever was. Her eyes sparkle
with health, her steps are light,
and she is as full of life as a kit-
ten. It does my heart good to
hear her running around, singing
and laughing and enjoying life
and good health again."

Tanlac is sold in Richmond by
Stockton and Son and leading
druggists.

EDUCATIONAL WORLD SUSTAINS GREAT LOSS

When Prof. Burnam Succumbs—
Tribute To Brilliant Man By
Those Who Knew Him

Mr. Editor:

Your valued paper of Monday
contained a short note announc-
ing the death of Dr. John Miller
Burnam, at Pomona, California.
This distinguished scholar and
literaturer deserves more than a
passing note. He was the son of
Edmund Hall Burnam, a distin-
guished scholar and minister of
the Baptist church, and Margaret
Miller, daughter of General John
Miller, who was killed at the bat-
tle of Richmond in August, 1862.

His people on both sides were dis-
tinguished soldiers and pioneers,
who played a conspicuous part in
the formation of both our Nation
and State. His mother died
when the subject of this article
was two years, and the duty of
inspiring and moulding the child
fell to his father. Until he en-
tered Yale at sixteen he was
rarely out of his presence. His
preparation for college was a la-
bor of love that could not be pur-
chased. When he entered Yale
College he was a better Latin and
Greek scholar than many who
complete the course after four
years of labor and study. Dur-
ing his college career he won
many prizes and scholarships,
graduating with a very high
standing in the class of 1884.

Two years after his graduation
he received from his Alma Mater
the degree of Ph. D. He went
almost immediately to Europe to
continue his studies. During
his life he spent many years in
the libraries of Rome, Paris and
Madrid doing research work. The
result of this work is many books
well known to the scholars of our
own and foreign countries. He
first taught Latin at George-
town, Ky., then at Missouri uni-
versity. From the latter insti-
tution he went to the University
of Cincinnati, and at the time of
his death was Professor of Ro-
man Languages at that institution.

As a Latinist he had few equals
and no superiors in our country.
The bent of his mind was for
languages and history. He spoke
with fluency French, Spanish and
Italian, while he read with ease
German, Russian and nearly all
of the tongues of modern Europe.

His information was both large
and very accurate, his scholar-
ship rich and varied. Yet with
all his accomplishments he was as
simple in his ways as a child, and
as companionable as one could be.
He loved his friends and relatives
and was always glad to see them.
What he accomplished was re-
markable when we consider that
he was never strong, but during
his whole life was constantly
nursing a frail body.

He will be remembered by
those who knew him as an upright
christian gentleman, a wonderful
scholar, and a most delightful
companion.

He was in his 58th year when
he died. He will be buried at
Pomona. He was never married.

Sketch of Prof. Burnam In
Enquirer

The Cincinnati Enquirer Tues-
day had the following reference
to the death of Prof. Burnam,
which will also be read with in-
terest by his many friends and
relatives here:

John M. Burnam, professor of
Latin and Romance Palaeogra-
phy, University of Cincinnati, and
one of the leading authorities in
America on the classics, died yester-
day at his home of his sister Miss
Anna Burnam, Pomona, Califor-
nia, after an illness of several
months. Prof. Burnam suffered
a paralytic stroke several weeks
previous to the opening of the
university last September and
since that time has been incapaci-
tated.

Prof. Burnam, who was 57
years old, came to the University
of Cincinnati in 1900 and was one
of the original eight professors
that formed the nucleus of the
present Liberal Arts College fac-
ulty. Several years ago the
professorship in Latin and Ro-
man Palaeography was confer-
red upon Prof. Burnam.

Prof. Burnam is said to have
possessed the most complete pri-
vate library of ancient writings
of any scholar or historian in
America. He has written a large
number of books dealing with an-
cient languages, most of which
have been published in Europe.
At the time of his death he was
preparing a complete set of vol-
umes on "The Types of Spanish
Manuscripts."

Prof. Louis T. More, dean of
the Graduate School, in discuss-
ing the death of Prof. Burnam,
said that the University of Cin-
cinnati, as well as the entire ed-
ucational world, has lost one of
its leading scholars.

"Several years ago," Prof.
More said, "I was discussing the
work of Prof. Burnam with Prof.
Wm. Hale, of Yale, who said
that he considered Prof. Burnam
to be the leading authority on
Latin in America."

Prof. Burnam was born in Ir-
vine, Kentucky, and attended
Central University, at Rich-
mond, Ky., Washington Univer-
sity, St. Louis, and received his
doctor of philosophy degrees from
Yale. He passed a number of
years studying in Europe. Vir-
tually all large literary societies
of Europe and America have be-
stowed special honors upon him.

Prof. Burnam has passed a
number of summers with his
cousin in California. At the time
he was stricken he was prepar-
ing to leave for Cincinnati to re-
sume his teaching and research
work. Dr. Frederick C. Hicks,
president of the University, re-
ceived a letter from him several
days before Prof. Burnam be-
came ill. In the letter Prof.
Burnam stated that he had vir-
tually completed his latest re-
search work and was ready to
have it published.

At a special meeting of the
deans of the various colleges of
the University of Cincinnati yester-
day afternoon, resolutions of
respect were passed. Similar ac-
tion will be taken by the faculty
today.

Funeral arrangements have not
yet been announced but it is ex-
pected that burial will be in Cin-
cinnati.

Dr. Hicks on behalf of the Uni-
versity, sent the following tele-
gram to Mr. Burnam.

"The University of Cincinnati
has suffered an irreparable loss
in the death of Prof. Burnam.
We honored him for his surpass-
ing scholarship and loved him for
his beautiful character. Our
thoughts are filled with sorrow.
We beg to extend to you and
others of his family our deepest sym-
pathy."

LEGION NEWS

National headquarters of the
American Legion is receiving re-
ports about the unique methods
many of the Legion posts are
employing to complete their col-
lection of 1922 membership dues
early in the new year in com-
pliance with a request of Nation-
al Commander MacNider.

"Trust the ex-service man to
find a way," said National Ad-
jutant Bolles commenting on the
resourcefulness of the former
soldier and sailor.

The story was told of a post
in South Dakota offering each
service man paying his dues be-
fore December 15, a biscuit bak-
ed by a recent bride and member
of the Women's Auxiliary. Three
of the biscuits to be distributed
contain cash prizes—\$20, \$40 and
\$5 in gold, but none of them is to
be opened until the night of the
post banquet when they will be
used as a card of admission. Early
recipients of biscuits declare
that from their weight it cannot
be judged whether the bits of
pastry contain bricks or feathers.

The Legion's national head-
quarters is laying great emphasis
on the early and complete pay-
ment of membership dues, de-
claring that the work of the or-
ganization for 1922 must start
with the new year and the year's
income must be assured at that

Old Age, His Mark!

Oliver Wendell Holmes, in the
charming discourses or "The Pro-
fessor at the Breakfast Table,"
refers to an unmistakable sign of
old age. It is three parallel lines
between the brows. We can de-
tect the first traces of disease by
signs just as plain.

When a woman suffers from
backache, nervous depression,
dragging down pains, and those
ailments peculiar to women, it is
plain that she needs a woman's
medicine. What other medicine
could she more wisely resort to
than Lydia E. Pinkham's Vegeta-
ble Compound, which for half a
century has proved the natural
restorative for these troubles? It

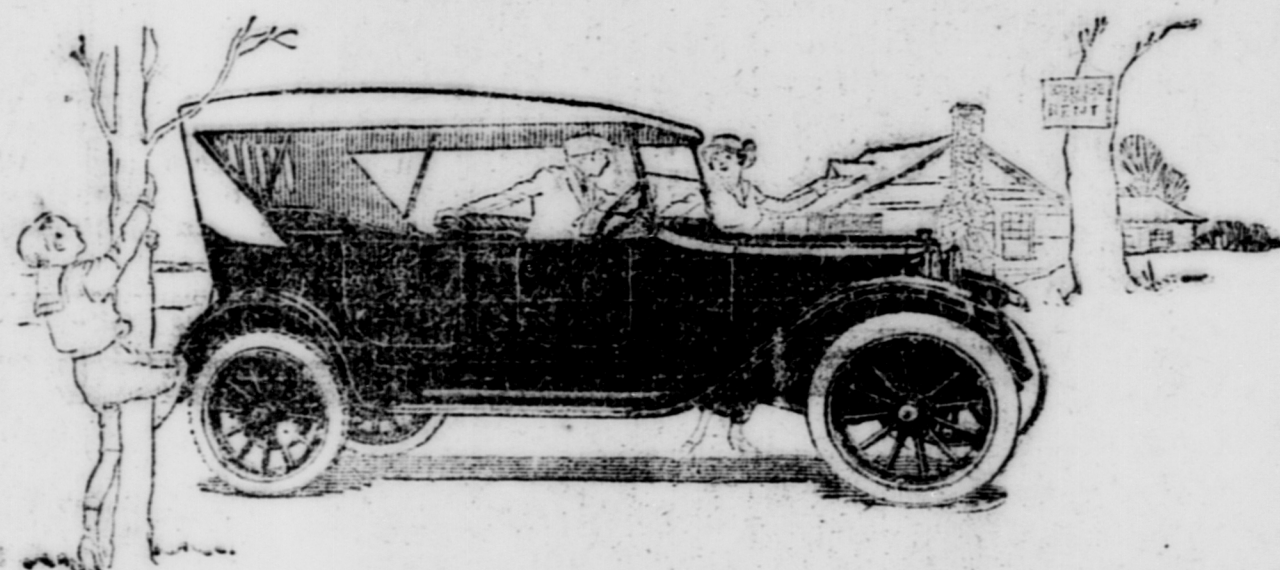

the land sold to secure the pay-
ment of said bonds and interest.

KIDS SHOW 'EM HOW TO PLAY FOOTBALL

In what many old-timers said was the most scientific football game seen on a local gridiron this season, that crack little Dodge team of 15-year-old boys and under, won from a Paint Lick kid team here Wednesday afternoon by a score of 39 to 12.

For the first time this season the goal line of the Dodgers was crossed, but it was no disgrace in this instance for the visiting players plainly outweighed the local boys, perhaps by an average of 8 or 10 pounds to the man. With several of their crack players missing among them "Skoos" McCord, Bob Dunn, Ricci and Alex Black, the Dodgers had to play several very light substitutes, but the way those little fellows fought to hold their line against the heavy visiting backs was a sight to see. Youngsters like Watson Clay, Dan Brock, Tom Samuels, Ed Blanton, "went after" the bigger fellows with a vim and gameness that was really remarkable. The work of Harry Blanton, Jr., was as brilliant as that of his daddy years ago when he was one of the great stars on a Kentucky gridiron. "Speck" Young, George Maupin and Charley Jett were bulwarks of strength and did great work in defense. Jett broke through and blocked a punt in the finest sort of style at a time when it counted big. "Speck" was always following the ball and was sure death with his tackling. The line plunging and end runs of "Buck" Adams and Clay Pearson nearly always netted good gains.

The real features of the game, however, were the fake plays that the Dodgers "pulled" time and again whenever they really needed distance. These coupled with the forward passing from Capt. Sauley to Harry Blanton, always put the ball within striking distance of the goal and it soon went over. Varsity players who witnessed the game from the sidelines frequently started with the cleverness that the Dodge youngsters showed in putting over their fake plays. Sauley, Adams and Pearson completely baffled Paint Lick's ends and backfield men with the stuff that they "pulled." The delayed pass, the fake forward pass, and other such plays were through nearly every time and then perhaps Sauley would shoot a long forward pass to Harry Blanton and the crowd would cheer these youngsters as the rarely do the big fellows, George Fembree, Normal coach, smile broadly at the inside stuff these kids were working and remarking he was going to have a game on one day, if they kept up their work like this.

The Paint Lick lads fought hard. They are the first eleven to cross the Dodge goal line this year, and at that only were able to do so once—in the very last quarter when Estridge caught the ball on a kick-off and ran the entire field for a 60-yard run for a touchdown. The visitors' other scores were made by two pretty drop-kicks from the Dodge 20-yard line, where they had been held when they tried to push across for goals. Beazley proved the best ground game for the visitors. He and Estridge made some nice gains on a fall play, but they were always stopped by their smaller opponent whenever the Dodge goal line got in danger.

WILL TERRILL HAS CLOSE CALL 'HUNTING'

While hunting with his brother-in-law, Herman Seven, in Russell county, William Terrill came within an ace of having a right foot shot off, when Mr. Stevens was trying to dislodge a shell which had hung in his automatic shotgun. Young Terrill walked back to see if he could help and his foot was in front of the muzzle of the gun just as it went off. The charge tore the skin and flesh from under the toes, but luckily did not break any bones. The hunting party was 11 miles from home in a truck. Terrill was hastily hurried into the car and it sped back to a physician. "First aid" had been given him by his hunting companion and much less blood was prevented. He will be on crutches for sometime though.

Queen Mary will be the first woman admitted to the English bar.
